

SeniorLAW Center
Protecting the Rights of Older Pennsylvanians

Keeping Elder Veterans S.A.F.E.

Too often, our Veterans do not get the assistance they deserve. SeniorLAW Center is here to help.

Are you or do you know a Veteran age 60 or older who has experienced physical, emotional, or financial harm by another person?

- Have you been a target of identity theft, scams, fraud or other financial crimes?
- Has anyone taken money from your bank account without your knowledge or consent?
- Has anyone ever threatened or physically harmed you?
- Has anyone insulted, cursed, or degraded you to make you feel bad about yourself?
- Has anyone ever denied you nourishment, medication or kept you from seeking medical help?

These are only a few warning signs of elder abuse and financial exploitation. SeniorLAW Center provides direct legal representation, advice, counseling, information and referral services to senior veterans who have been harmed by others physically, emotionally or financially. We can also connect you with emergency financial assistance, housing resources, support groups, health services, and other resources.
